

Proposed searchable fields for Home Guard

Name: surname, forename(s)

Date of Birth

Area or County The records were arranged by county and then by Battalion and then in alpha order or the whole county was just in alpha order. Essential to retain county data.

Place of birth Not always present but multiples of the same name may require additional data to identify them

Address This is recorded on the AF W 3066, so could be useful to help pin people down and it would also enable people to do regional studies and therefore throw the records open to different uses
