In addition, there is a book describing "Gearing and machinery calculations, New Mill, March 1860". This details the whole layout of the mill, together with types of machinery (mainly cotton spinning), mill engines, gearing, boilers, etc. Unfortunately, there is no indication which "New Mill" this was, but I believe it to be in Burnley.

The Friends of the Weaver's Triangle, Toll House, 85a, Manchester Road, Burnley, also have Pemberton Loom Order Books, dated 1913 - 60; 1897 - 1901; 1909 - 1914. In addition, there is a complete inventory of Greenfield Mill, Rochdale, made by E. Rushton and Sons, auctioneers, Manchester, 1889.
